

Ma Famille

Now that you've created a family tree, you will use it as the basis for a family album. You will create a book about your "family" which will include pictures and details about each family member in your family tree. The goal is to practice new vocabulary and structures as well as demonstrate command of old vocabulary and structures. We will eventually be using the iPads to create a book with the pictures, but first you will create a draft on paper.

Use "La Famille Malefoy" and "La Famille de Sousbois" as examples.

Part 1

You will include the image you created of your family tree, with each person named and labeled as to how they are related to you. (Use mon, ma, mes)

As part of your family tree, write **2 sentences** about your family in general.

Part 2

Write some sentences telling about your different family members.

- **Write a minimum of 20 sentences.** Each family member pictured should be included in at least one sentence.
- You may write sentences that apply to more than one person, for example, instead of writing "Ma cousine est comique" and another sentence about your other cousin, you might just write one sentence about both cousins: "Mes cousins sont comiques et fantastiques".
- You can describe your family members, say things they like or don't like, say things you like doing with them, talk about their activities, talk about how they are related to one another, say some things they have, places they go, things they are going to do, etc.
- Use language we know and try hard to vary your sentences and expressions.
- Use a variety of -er verbs, as well as être and avoir. Demonstrate that you know how to use adjectives, and how to make sentences negative.
- Use possessive adjectives. (mon, ma, mes)

Don't forget to write about yourself.

Part 3

Write **10 different questions** about your family that can be answered in your text. Vary your question words. Write no more than 4 "qui" questions.

être		avoir		danser	
je suis	nous sommes	j'ai	nous avons	je danse	nous dansons
tu es	vous êtes	tu as	vous avez	tu dances	vous dansez
il est	ils sont	il a	ils ont	il danse	ils dansent
elle est	elles sont	elle a	elles ont	elle danse	elles dansent
on est		on a		on danse
